- share premium (if applicable) arising on the shares issued
- total amount raised as a result of the issuing of shares
- reason for the issuing of new shares.

- *Revaluation shares*

Where items of property, stadium and equipment and/or intangible assets are stated at revalued amounts, the revaluation surplus, indicating the change for the reporting period and any restrictions on the distribution of the balance to shareholders, must be disclosed.

- *Other reserves*

Any other form of reserves that is not contained in revaluation reserves, including any changes for the reporting period and any restrictions on the distribution of the balance to shareholders, must be disclosed.

- *Retained earnings*

The balance of retained earnings, i.e. accumulated profit or loss at the beginning of the reporting period and at the balance sheet date, and changes during the reporting period must be disclosed.

*i. Controlling party and ultimate controlling party*

When the reporting entity is controlled by another party, the related party relationship and the name of that party must be disclosed and, if different, that of the ultimate controlling party. This information must be disclosed irrespective of whether any transactions have taken place between the reporting entity and the controlling parties.

*j. Related- party transactions*

A related-party transaction means a transfer of resource, services or obligations between related parties, regardless of whether a price has been charged. A related-party transaction may or may not have taken place at fair value.

If there have been one or more related party transactions during the reporting period, the reporting entity must disclose the nature of the related party relationship, as well as information about those transaction(s) and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements. Items of a similar nature may be disclosed in aggregate except when separate disclosure is necessary to understand the effects of related- party transactions on the financial statements of the reporting entity.

As a minimum, disclosures for each related party must include:

- i) the amount and the nature of the transaction(s);
- ii) the amount of outstanding balances, including commitments, and:
  - their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and

- details of any guarantees given or received;
- iii) provisions for doubtful debts related to the amount of outstanding balances;  
and
- iv) the expense recognised during the period in respect of bad or doubtful debts  
due from related parties.

The disclosures required must be made separately for each of the following categories:

- the parent
- founding members and members
- entities with joint control or significant influence over the reporting entity
- subsidiaries
- associates
- joint ventures in which the reporting entity is a venture
- the entity or its parent's key management personnel and
- other related parties.

Confirmation that related-party transactions were made on terms equivalent to those that prevail in arm's length transactions must be given if such terms can be substantiated.

*k. Contingent liabilities*

Unless the possibility of any outflow in settlement is remote, for each class of contingent liability the reporting entity must disclose a brief description of the nature of the contingent liability at the annual accounting reference date and, where practicable:

- i) an estimate of its financial effect
- ii) an indication of the uncertainties relating to the amount or timing of any outflow and
- iii) the possibility of any reimbursement.

*l. Events after the balance sheet date*

Material non-adjusting events after the balance sheet date must be disclosed including the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made. Examples of such events are:

- i) fixed-term borrowing approaching maturity without realistic prospects of renewal or repayment
- ii) substantial operating losses
- iii) discovery of material fraud or errors that show the financial statements are incorrect
- iv) management determining that it intends to liquidate the entity or to cease

trading, or that it has no realistic alternative but to do so

- v) player transactions where the amounts paid or received are material
- vi) transactions relating to property, e.g. in relation to the club's stadium.

*m. Other disclosures*

- i) Agents'/ intermediaries fees

The total amount incurred in the reporting period in respect of or for the benefit of agents/ intermediaries must be disclosed.

- ii) Tax expense

The components of tax expense must be disclosed separately. That is, the aggregate amount included in the determination of the net profit or loss for the reporting period in respect of current and/or deferred tax.

- iii) Miscellaneous

Any additional information or disclosure that is not presented on the face of the balance sheet, profit and loss account or cash flow statement, but is relevant to an understanding of any of those statements and/or is required to meet the minimum financial information requirements, must be disclosed.

### 3.6 – Player identification table

1. All licence applicants/ licensees must prepare and submit to EFA a player identification table.
2. The player identification table must be provided to the auditor, who must reconcile the aggregate figures in the player identification table to the relevant figures in the balance sheet and profit and loss account in the annual financial statements. However, the player identification table does not need to be disclosed within the annual financial statements or interim financial statements.
3. The minimum information to be included in the player identification table in respect of each relevant player is as follows:
  - a) name and date of birth;
  - b) start date of original player contract and end date of current contract;
  - c) costs of the player's registration;
  - d) accumulated amortisation brought forward and as at the end of the period;
  - e) amortisation of the player's registration in the period;
  - f) impairment of the player's registration in the period;
  - g) disposal of the player's registration (cost and accumulated amortisation);
  - h) net book value (carrying amount);
  - i) profit/loss on disposal of the player's registration; and
  - j) sell-on rights (or similar), i.e. description and (if possible) quantification of any sell-on rights to a football club that formerly held the player's registration, excluding training compensation and/or solidarity contributions.
4. Relevant players, about whom details are required in the player identification table, are:
  - a. all players whose registration is held by the licence applicant/licensee at any time during the period and in respect of whom some direct acquisition cost has been incurred (at some point in time in the reporting period or prior periods); and
  - b. all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period).
5. For licence applicants/licensees who have restated player accounting figures to meet the accounting requirements of these regulations, these aggregate figures from the player identification table must agree with/be reconciled to the restated financial statements.

### **3.7 – Financial Review by management**

1. The annual financial statements must include a financial review or commentary by management that describes and explains the main features of the reporting entity's financial performance and financial position and the principal risks and uncertainties it faces.
2. The annual financial statements must also include the names of persons who were members of the reporting entity's executive body or board of directors and its supervisory bodies at any time during the year.

## **Annex 4: Accounting requirements for the preparation of financial statements**

### **4.1 – Principles**

1. Financial statements as defined in criterion F.02, must be based on Estonian Accounting Law and Estonian Financial Reporting Standards, regardless of the legal structure of the license applicant.
2. Financial statements must be prepared on the assumption that the licence applicant is a going concern, meaning it will continue in operation for the foreseeable future. It is assumed that the licence applicant has no intention or need to go into liquidation, cease trading or seek protection from creditors pursuant to laws or regulations.
3. Financial statements must be prepared and submitted according to the Estonian Accounting Law and Estonian Financial Reporting Standards must contain certain underlying principles including:
  - a) fair presentation
  - b) consistency of presentation
  - c) accrual basis for accounting
  - d) separate presentation of each material class of items
  - e) no offsetting between assets and liabilities and between income and expenses.
4. Notwithstanding that each licence applicant has to prepare annual financial statements under Estonian Accounting Law and Estonian Financial Reporting Standards, these regulations include specific accounting requirements to be complied with as set out in present Annex 4, under point 4.2 until 4.6.
5. If the annual financial statements are not in compliance with the accounting requirements set out in present Annex 4, then the licence applicant must also submit to the EFA:
  - a) restated financial statements to meet the accounting requirements set out in present Annex 4, governing the same period and including comparative amounts for the previous comparative period;
  - b) a declaration by the licence applicant's management that the restated financial statements are complete, accurate and in compliance with the regulations; and
  - c) an assessment report provided by the same auditor that signs the annual financial statements by way of agreed- upon procedures prescribed by EFA in respect of the completeness and accuracy of the restated financial statements.
6. Restated financial statements must include:
  - a) a restated balance sheet as at the end of the period;
  - b) a restated profit and loss account/income statement for the period;
  - c) a restated statement of changes in equity for the period; and
  - d) notes, comprising a summary of significant accounting policies, other explanatory notes, and a note (or notes) reconciling the balance sheet and profit and loss account/income statement between the restated financial statements and the relevant annual financial statements.

#### **4.2 – Consolidation obligation and requirements**

1. The financial information of all entities included in the reporting perimeter (as defined in requirement F.01) must be consolidated as if they were single entity.
2. Consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single company.

### 4.3– Accounting requirements for permanent transfer of a player's registrations

1. The acquisition of player's registration must be recognised in the financial statements when all significant conditions for the transfer to take place have satisfied, i.e. it is effectively unconditional, which means that there must be a legally binding agreement between the two clubs and between acquiring club and the player.
2. The disposal of player's registration must be recognised in the licence applicant's financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional and the risks and rewards have been transferred to the new club.
3. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefits expenses and not costs of acquiring a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of acquiring a player's registration even if the borrowings were obtained to help finance the acquisition of player registrations.
4. The minimum accounting requirements for licence applicants that capitalise the costs of a player's registration as an intangible asset are as follows:
  - a) Only the directly attributable costs of a player's registration can be capitalised as an intangible asset. For accounting purposes, the carrying value of an individual player must not be revalued upwards, even though a licence applicant's management may believe market value is higher than carrying value. In addition, whilst it is acknowledged that a licence applicant may be able to generate some value from the use and/or transfer of locally trained players, for accounting purposes costs relating to a licence applicant's own youth sector must not be included in the balance sheet – as only the costs of a player's registration are to be capitalised. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefit expenses and not costs of a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of a player's registration even if the borrowings were obtained to help finance the acquisition of player registrations.
  - b) Amortisation of costs of a player's registration must begin when the player's registration is acquired. Amortisation ceases when the asset is fully amortised or derecognised (i.e. the registration is considered as being permanently transferred to another club), whichever comes first.
  - c) For each individual player's registration, the depreciable amount must be allocated on a systematic basis over the duration of the player's original contract, up to a maximum of 5 years. This is achieved by the systematic allocation of the cost of the asset as an expense from the date the player's registration is acquired and over the period of the player's contract, up to 5 years. If the period of a player's contract with the club is extended, then the intangible asset carrying value of the player's registration plus any additional directly attributable contract negotiation costs (e.g. agent/intermediary fees) can either be amortised over the remaining period of the original contract, or be amortised over the extended

period of the player's contract, up to 5 years from the date of the contract extension.

- d) All capitalised player values must be reviewed for impairment each year by the licence applicant's management. If the recoverable amount for an individual player is lower than the carrying amount on the balance sheet, the carrying amount must be adjusted to the recoverable amount and the adjustment charged to the profit and loss account as an impairment cost. It is recommended that each licensor requires each of its licence applicants to apply consistent accounting policies in respect of player registration costs. The net book value of a player's registration should be reviewed for impairment in the reporting period in the following circumstances:
- i. When it becomes clear by the annual accounting reference date that a player will not be able to play again with the club, for example if he suffers a career-threatening injury or is permanently unable to play professional football. In this case the net book value of the player's registration on the balance sheet must be fully impaired in that reporting period. The following events do not represent a cause for recognising impairment loss:
    - A player suffers an injury in a reporting period and is temporarily unable to play professional football with the club; or
    - A player suffers a decline in fitness or ability and is not selected for participation in first team matches.

In this regard, the future wages of a player suffering from a career-threatening injury or permanently unable to play professional football must continue to be recognised as employee benefit expenses throughout the duration of the player's contract.
  - ii. If the management of the club is committed to permanently transfer a player's registration and the transfer occurs just after the annual accounting reference date. In this case the net book value of the player's registration on the balance sheet should be reviewed for impairment if the disposal proceeds for the permanent transfer of the player's registration to the new club is lower than his net book value. The accounting principle must be disclosed in the financial statements and applied consistently from one reporting period to another.
  - iii. If the management of the club has temporarily transferred a player's registration for amount lower than the amortisation cost.
- e) The profit/(loss) on the disposal of a player's registration to another club to be recognised in the profit and loss account is the difference between the net disposal proceeds and the residual carrying value of the player's registration in the balance sheet as at the date of the transfer.

5. If two or more players are transferred in opposite directions between clubs, the licence applicant must assess whether these transfers are to be considered as player exchange transactions under the terms of these regulations. If so, the international

accounting requirements for the exchange of assets (i.e. currently International Accounting Standard 38, paragraphs 45-47) are to be applied when calculating the profit from the disposal of the outgoing player(s) and registration costs for the incoming player(s).

In principle, when calculating the profit from the disposal of outgoing player's registration, the proceeds cannot exceed the net book value of the cost of the player's registration in the licence applicant's financial statements, adjusted to take account of any net cash paid in the context of the exchange transaction and the registration costs for the incoming player must be capitalized at the maximum at the carrying amount of the outgoing player, adjusted to take account of any net cash paid by the club in the context of exchanged transaction.

A player exchange transaction is when two or more players are transferred in opposite directions between clubs, and which typically includes one or more of the following conditions in respect of the players transferred in and out (not exhaustive list).

Transfers, incoming and outgoing:

- are included in the same transfer contract;
  - are included in different transfer contracts that are linked to each other;
  - are concluded in the same registration period;
  - do not involve any or only limited monetary disbursements;
  - do involve the same or similar payments obligations or payment deadlines for both the players transferred in and players transferred out that are likely to offset each other.
6. Profit/ loss on disposal of a player's registration must be calculated net of any amounts paid and/ or payable that are directly attributable to the disposal of the player's registration, comprising:
- a) realised conditional transfer compensation for amounts which have become payable on the disposal of the player's registration (e.g sell-on fee payable to another club);
  - b) any other directly attributable amounts paid and/or payable to another party such as another football club, agent/intermediary, or national football association/league.
7. Licence applicant must apply the following adjustments in respect of the permanent transfer of a player's registration between clubs that are related parties:
- a) the club that has transferred in the player's registration must calculate the cost of acquiring the player's registration – for the calculation of an amortisation charge for the reporting period (for clubs using the capitalisation and amortisation method of accounting for players registrations) or for the costs of the player's registration (for clubs using the income and expense method of accounting for the players registration) – using the greater of the following amounts:

- i) the actual transaction cost of acquiring the player's registration;
- ii) the historical cost of the player's registration in the financial statements of the club that has transferred out the player.

If the calculated amortisation charge is greater than the calculated cost of the player's registration and greater than the recorded costs of the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

- b) The club that has transferred out the player's registration must calculate the disposal of the player's registration for the income from the player's registration – using the lower of the following:
  - i) the actual transaction proceeds on disposal;
  - ii) the net book value in respect of the costs of the player's registration in its financial statements.

If the calculated profit on disposal is lower than the recorded profit on disposal or the calculated income from the player's registration is lower than recorded income from the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

- 8. The above accounting requirements apply by analogy to any other personnel, e.g head coach, and release income/costs or similar paid to another club.

**4.4 – Accounting requirements for the temporary transfer of a player's registrations**

1. The minimum accounting requirements for licence applicants that have transactions in respect of the temporary transfer of a player's registration (loan) are as follows:
2. Loan fees received/paid must be reported as player transfer income/ expense.
3. Loan of a player from the lender club to the new club with no obligation/option to buy:
  - i) the loan fees received/receivable by the lender club, if any, must be recognised as income over the period of the loan arrangement. The lender club will continue to recognise the original costs of a player's registration as an intangible asset on its balance sheet and to systematically allocate the cost of the asset as an amortisation expense over the period of the player's contract.
  - ii) the loan fees paid/payable by the new club, if any, must be recognised as an expense over the period of the loan arrangement. If the player's salary is taken over by the new club, it must be recognised as an employee benefit expense over the player's loan term.
4. Loan of a player from the lender club to the new club with an unconditional obligation to buy:
  - i) the loan must be reflected by the lender club as a permanent transfer. The proceeds from the loan and from the future permanent transfer must be recognised from the inception of the loan agreement.
  - ii) the directly attributable costs of the loan and the future permanent transfer for the new club must be recognised by the new club in accordance with the accounting requirements for permanent acquisition of a player's registration.
5. Loan of a player from the lender club to the new club with an option to buy:
  - i) The transaction must be recorded as a loan by the lender club until the option is exercised by the new club. When the option is exercised, any remaining proceeds of the loan and proceeds of the future permanent transfer must be recognised in accordance with the accounting requirements for the permanent disposal of player's registration.
  - ii) When the option is exercised by the new club, any remaining costs of the loan and the costs of the future permanent transfer must be recognised by the new club in accordance with the accounting requirements for the permanent disposal of a player's registration.
6. Loan of a player from the lender club to the new club with a conditional obligation to buy:
  - i) If a condition is considered to be virtually certain, then the player's registration must be recognised by both clubs as a permanent transfer from the inception of the loan agreement.
  - ii) If the fulfilment of a condition cannot be assessed with sufficient certainty to trigger the permanent transfer from the inception of the loan, then the player's registration must be recognised first as a loan and then as a permanent transfer once the condition is met.

7. The licence applicant must apply the following adjustments in respect of the temporary transfer of a player's registration between clubs that are related parties:

a) the club that has temporarily transferred in the player's registration must calculate an expense amount in respect of the player for the reporting period using the greater of the following amounts:

- the actual transaction cost in the reporting period;
- the aggregate amount of the amortisation charge in respect of the player's registration and the employ benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player.

If the calculated expense is grater that the recorded expense, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

b) the club that has temporarily transferred out the player's registration must calculate an income amount in respect of the player for the reporting period using the lower of the following amounts:

- the actual transaction income in the reporting period;
- the aggregate amount of the amortisation charge in respect of the player's registration and the employee benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player.

If the calculated income amount is lower than the recorded income, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

## **4.5 – Accounting requirements for specific expense items**

### **1. Incentive/bonus expenses for employees**

- a) All forms of consideration given by an entity in exchange for services rendered by an employee, including any bonuses and incentives such as performance related consideration, contract signing fees, and loyalty incentives, must be reported as employee benefit expenses.
- b) Bonus and/or incentive payments that are payable in full by the club to a person with no further condition or service obligation (i.e. the club has no choice but to make the payments) must be recognised as employee benefit expenses when triggered.
- c) Bonus and/or incentive payments that are dependent on a certain future condition being satisfied by the player and/or the club, such as a player's participation in matches and/or the club's competition performance, must be recognised as employee benefit expenses at the point in time when the condition has been satisfied or its fulfilment becomes highly probable.
- d) Incentive and/or bonus to players when entering and/or extending an employment agreement with any condition or service obligation must be recognised on a systematic basis over the relevant period.

### **2. Termination benefits to employees**

A club must recognise in full the expense of termination benefits to an employee when the club can no longer withdraw the offer of those benefits.

## 4.6 – Accounting requirements for specific revenue items

### 1. Season ticket and similar revenues

- a) Revenue in respect of season ticket sales or similar match- related sales must be recognised on a proportionate basis at the point in time when the relevant matches take place during the period.

### 2. Broadcasting rights and/or prize money revenues

- a) Revenue in respect of broadcasting rights and/or other consideration for participation in a competition which are fixed considerations must be recognised on a proportionate basis at the point in time when the relevant matches take place during the period.
- b) Revenue in respect of broadcasting rights and/or consideration for participation in a competition which are variable considerations depend on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

### 3. Sponsorship and advertising revenues

- a) Revenue in respect of sponsorship rights and advertising which are fixed consideration must be recognised on a proportionate basis over the period covered by the sponsorship rights and/or advertising arrangements.
- b) Revenue in respect of sponsorship rights and advertising which are variable considerations that depend on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.
- c) Any non-cash consideration as part of a sponsorship and/or advertising arrangement must be measures at fair value.

### 4. Donations and grants/subsidies

- a) A donation is an unconditional gift of consideration that must be recognised as other operating income when received.

Grants/subsidies must not be recognised in the accounts of the club until there is reasonable assurance that the club will comply with the conditions to receive the grant/subsidy and the grant/subsidy will be received. Then, a grant/subsidy must be recognised in profit and loss on a systematic basis over the reporting periods in which the club recognises as expenses the related costs for which the grants/subsidies were intended to compensate. Therefore, grants/subsidies in respect of specific expenses are recognised in profit and loss in the same reporting period(s) as the relevant expenses. Similarly, grants/subsidies related to depreciable assets are recognised in profit and loss over the reporting periods and in the proportions in which depreciation expenses on those assets is recognised. A grant/subsidy that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support with no future related costs must be recognised in profit or loss in the period in which it becomes receivable.

## **Annex 5: Notion of overdue payables**

### **5.1 – Principles**

1. Payables are considered as overdue if they are not paid according to the contractual or legal terms.
2. Payables are not considered as overdue, within the meaning of these Regulations, if the licence applicant (i.e. debtor) is able to prove by the applicable deadline, i.e. 31 March that:
  - a) the relevant amount has been settled, i.e. either paid in full or offset against the creditor's obligations towards debtor; or
  - b) the deadline for payment of the relevant amount has been deferred (referred to as "amounts deferred" in these Regulations), i.e. an agreement has been concluded in writing with the creditor to extend the deadline for payment (a creditor not requesting payment of an amount does not constitute an extension of the deadline); or
  - c) the relevant amount is subject to a legal claim or open proceedings (referred to as "amounts disputed" in these Regulations), meaning:
    - i) the debtor has brought a legal claim which has been deemed admissible by the competent authority under national law or has opened proceedings with the national or international football authorities or relevant arbitration tribunal contesting liability in relation to the overdue payables, knowing that if the decision-making bodies (Estonian FA or CFCB) consider that such claim has been brought or such proceedings have been opened for the sole purpose of avoiding the applicable deadlines set out in these Regulations (i.e. in order to buy time), the relevant amount will still be considered as an overdue payable; or
    - ii) the debtor has contested to the competent authority under national law, the national or international football authorities or the relevant arbitration tribunal, a claim which has been brought or proceedings which have been opened against it by a creditor in respect of overdue payables and is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies (Estonian FA or CFCB) that it has established reasons for contesting the claim or the proceedings which have been opened, knowing that if the decision making bodies (EFA and CFCB) consider the reason for contesting the claim or proceedings as manifestly unfounded the amount will still be considered as an overdue payable; or
  - d) the settlement of the relevant amount is pending (referred to as "amounts pending" in these Regulations), meaning:

the debtor has requested Estonian Tax and Customs Board, in writing and in accordance with applicable law, to extend the deadline for payment of payables to social/tax authorities (as defined by requirement F.06), and Estonian Tax and Customs Board has confirmed in writing that this request has been deemed admissible and still pending by 31 March.

    - i) the Debtor is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies (Estonian FA or CFCB) that it has taken

all reasonable measures to identify and pay the creditor(s) in respect of training compensation and solidarity contributions (as defined in the FIFA Regulations on the Status and Transfer of Players).

## Annex 6: Licensor's assessment procedures

### 6.1 – Principle

1. Estonian FA ensures equal treatment of all clubs applying for a licence. It assesses the documents submitted by the clubs, considers whether it is appropriate and determines to its **comfortable satisfaction** whether each criterion has been met and what further information, if any, is needed for each licence to be granted.
2. The assessment processes to check compliance with the defined provisions set out in Article 10 refer to specific assessment steps that must be followed by the licensor as set out below. The assessment process to check the compliance with club monitoring criteria is defined in Annex I of the UEFA Club Licensing and Financial Sustainability Regulations (2023).

## 6.2 – Assessment of the auditor's report on the financial statements

1. In respect of the annual financial statements, EFA must perform the following minimum assessment procedures:
  - a) Assess whether the reporting perimeter is appropriate for club licensing purposes.
  - b) Assess the submitted information to form a basis for the licensing decision.
  - c) Read and consider the annual financial statements and the auditor's report thereon.
  - d) Address the consequences of any modifications to the auditor's report (compared to the normal form of unqualified report) and/or deficiencies compared to the minimum disclosure and accounting requirements according to paragraph 2 below.
2. Having assessed the reporting perimeter and read the auditor's report on the annual financial statements, the licensor must assess these according to the items below:
  - a) If the reporting perimeter does not meet the requirements of requirement F.01, the **UEFA Licence must be refused**.
  - b) If the auditor's report has an unqualified opinion, without any modification, this provides a satisfactory basis **for granting the UEFA Licence**.
  - c) If the auditor's report has a disclaimer of opinion or an adverse opinion, the **UEFA Licence must be refused**, unless a subsequent audit opinion without disclaimer of opinion or an adverse opinion is provided (in relation to another set of financial statements for the same financial year that meet the minimum requirements) and the licensor is satisfied with the subsequent audit opinion.
  - d) If the auditor's report has, in respect of going concern, an emphasis of matter, a key audit matter or a qualified 'except for' opinion, the **UEFA Licence must be refused**, unless either:
    - i) a subsequent audit opinion without going concern, an emphasis of matter, a key audit matters or qualification is provided, in relation to the same financial year; or
    - ii) additional documentary evidence demonstrating the licence applicant's ability to continue as a going concern until at least the end of the licence season has been provided to, and assessed by, the licensor to its satisfaction. The additional documentary evidence must include, but is not necessarily limited to, the information described in requirement F.07 (Future financial information).
  - e) If the auditor's report has, in respect of a matter other than going concern, an emphasis of matter, a key audit matter or a qualified 'except for' opinion, then the licensor must consider the implications of the modification for club licensing purposes. The UEFA Licence may be refused unless additional documentary evidence is provided and assessed to the satisfaction of the licensor. The additional evidence that may be requested by the licensor will be dependent on the reason for the modification to the audit report.

- f) If the auditor's report makes a reference to any situation defined in requirement F.06, the UEFA Licence must be refused.
- 3. If the licence applicant provides supplementary information and/or restated financial statements, the licensor must additionally assess the auditor's report on the agreed-upon procedures in respect of the supplementary information and/or restated financial statements. The UEFA Licence may be refused if the auditor's report is not satisfaction of EFA and/or includes reference to errors and/or exceptions found.

### **6.3– Assessment of licensing documentation for the net equity rule**

1. In respect of the net equity rule, EFA must perform the following minimum assessment procedures:
  - a) determine the net equity position as at the 31 December preceding the deadline for the submission of the application to the licensor based on the annual financial statements;
  - b) assess, if applicable, whether the subordinated loans meet the requirement conditions;
  - c) if the net equity position as at the 31 December preceding the deadline for submission of the application to the licensor is negative, assess whether it has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year;
  - d) if the equity rule is not fulfilled as at the 31 December preceding the deadline for submission of the application to the licensor, assess if the licence applicant has submitted by 31 March at the latest a new audited balance sheet, including any contributions made since 31 December, demonstrating that the net equity position has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year.

## 6.4 – Assessment of licensing documentation for no overdue payables

1. In respect of the “no overdue payables” criteria to football clubs, employees and social/tax authorities, the licensor may decide:
  - a) to assesses itself the information submitted by the licence applicant, in which case it must perform the assessment according to paragraphs 2, 3 and 4 below; or
  - b) to have independent auditor carry out the assessment procedures in accordance with ISRS 4400, in which case EFA must assess the information submitted by the licence applicant (in particular the payables tables and corresponding supporting documents) and review the auditor's report. If the licence applicant or its football-school or any parent company of the licence applicant included in the reporting perimeter is/was seeking protection or has received protection from its creditors pursuant to laws or regulations within the 12 months preceding the licence season or is receiving protection at the time of the assessment then the UEFA **Licence must be refused**.
