

17 October 2025

Dear Theodore,

on behalf of the Estonian Football Association, I wish to express our continued appreciation for the partnership and support UEFA has provided to our organisation and to European football.

Recently, our Association has received a formal request from several member clubs (see attachment) seeking clarification on the ongoing financial support provided to Russian football clubs, as well as the current situation regarding payments to Ukrainian clubs. We understand that these matters are complex and sensitive, and we fully recognise UEFA's commitment to fairness, solidarity, and the values that unite the football community.

Given the concerns raised by our members, we kindly ask UEFA to provide further information and documentation regarding the rationale and process behind the funding of Russian clubs in the current circumstances, and to advise us on any actions or considerations that may be appropriate for our Association. Our intention is to ensure transparency and understanding among our members, and to support UEFA in upholding its values and responsibilities.

Thank you for your attention to this matter, and for your ongoing partnership.

With best regards,

Aivar Pohlak
President
